P O O L F I N I S H E S

The ORIGINAL aggregate pool finish that delivers enduring elegance and durability. It is a perfect choice for those desiring a more natural environment for their pool and spa. This earthy textured finish is comprised of the largest pebbles in our product offering. It offers a durable, non-slip and stain-resistant surface in a wide variety of colors.

Our most popular pool finish offering the same natural beauty and inherent qualities as the original PebbleTec® pool finish with a more refined texture. This finish utilizes slightly smaller pebbles than those found in the original PebbleTec. It also offers a durable, non-slip and stain-resistant surface.

Made from finely ground natural pebbles, PebbleFina® offers the softest texture of aggregate finishes available. This exclusive product line is enriched with additives that provide superior strength and long-lasting durability over a traditional pool finish. Certain colors incorporate Star Dust  , a reflective pool finish additive for added sparkle.

A blend of vibrant glass beads and natural stone aggregate. The stunning beauty of the glass beads creates an infusion of color delivering a captivating finish and a uniquely brilliant water color. This distinctive blend offers long-lasting durability with a lavish texture. All colors incorporate Shimmering Sea  for added elegance.

P O O L F I N I S H E N H A N C E M E N T S

Pebble Technology offers unique pool finish enhancements that enrich the interior surface and provide a customized poolscape. Many of the projects featured in this book incorporate one of our enhancements. They are indicated by the logo icon next to the pool finish color name.
